

PADEL COURTS

Spaces for Every Match.

15 court concepts. 8 component and project-scope proposals.
A dedicated chapter of the Cinematic Collection. Technical review required.

COURT CONCEPT / AG-PDL-01

Classic Steel Court

A familiar steel-and-glass doubles court concept for clubs, schools and community sport.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

COURT CONCEPT / AG-PDL-02

Full Panoramic 360° Court

An open-visibility court concept for venues that want the game to remain the centre of the experience.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

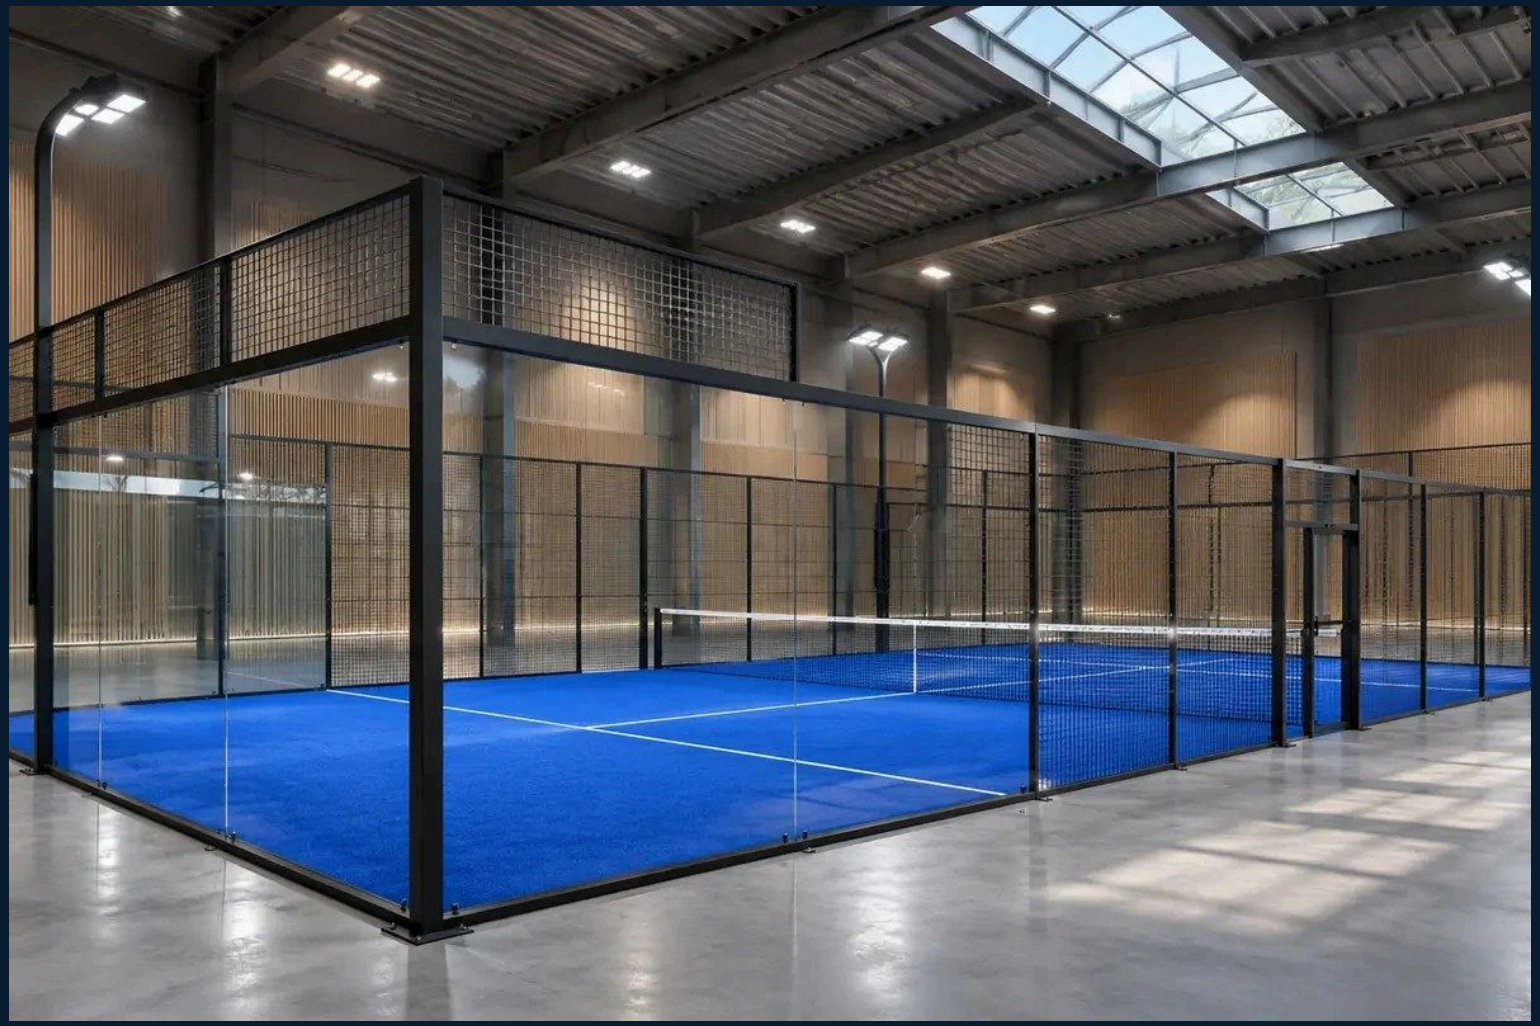

COURT CONCEPT / AG-PDL-03

Portable Modular Court

A relocatable court direction for temporary activations and event sites, subject to engineered support and anchoring.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

COURT CONCEPT / AG-PDL-04

Indoor Arena Court

A court integrated into an indoor sports building with coordinated lighting, ventilation and safe circulation.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

COURT CONCEPT / AG-PDL-05

Covered Climate Shield Court

An outdoor court with a shade or roof strategy considered alongside drainage, wind and thermal comfort.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

COURT CONCEPT / AG-PDL-06

Singles Training Court

A narrower training and practice format for targeted coaching or constrained programmes.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

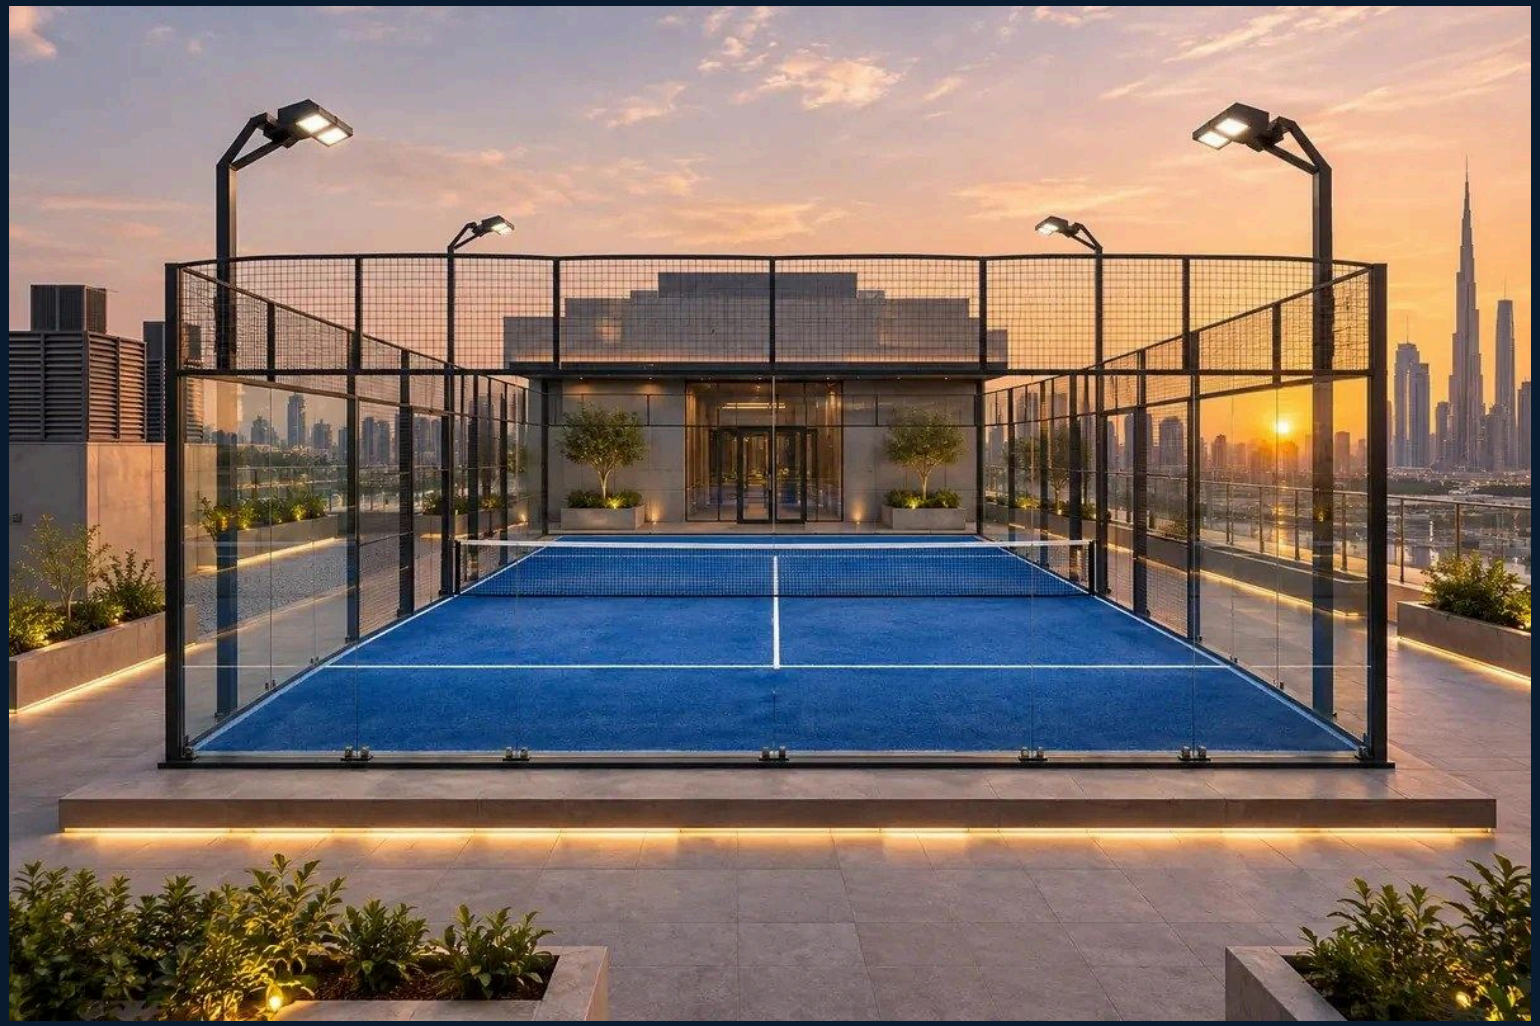

COURT CONCEPT / AG-PDL-07

Competition Show Court

A presentation-led show-court concept with spectator sightlines, event lighting and broadcast interfaces considered early.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

COURT CONCEPT / AG-PDL-08

Rooftop Court — Feasibility Design

A feasibility-first rooftop proposal that starts with the building, load path and access before a court is selected.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

COURT CONCEPT / AG-PDL-09

Resort & Hospitality Court

A court concept shaped around guest arrival, landscape, lighting, seating and hospitality operations.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

COURT CONCEPT / AG-PDL-10

Premium Club Multi-Court System

A multi-court site-planning concept that coordinates court orientation, circulation, support spaces and phased delivery.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

COURT CONCEPT / AG-PDL-11

Lightweight Composite Court — OEM Option

An OEM research direction for alternative structural materials and reduced component weight.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

COURT CONCEPT / AG-PDL-12

School & Community Court

A community-use court brief with supervision, access, durability and shared-sport operations considered.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

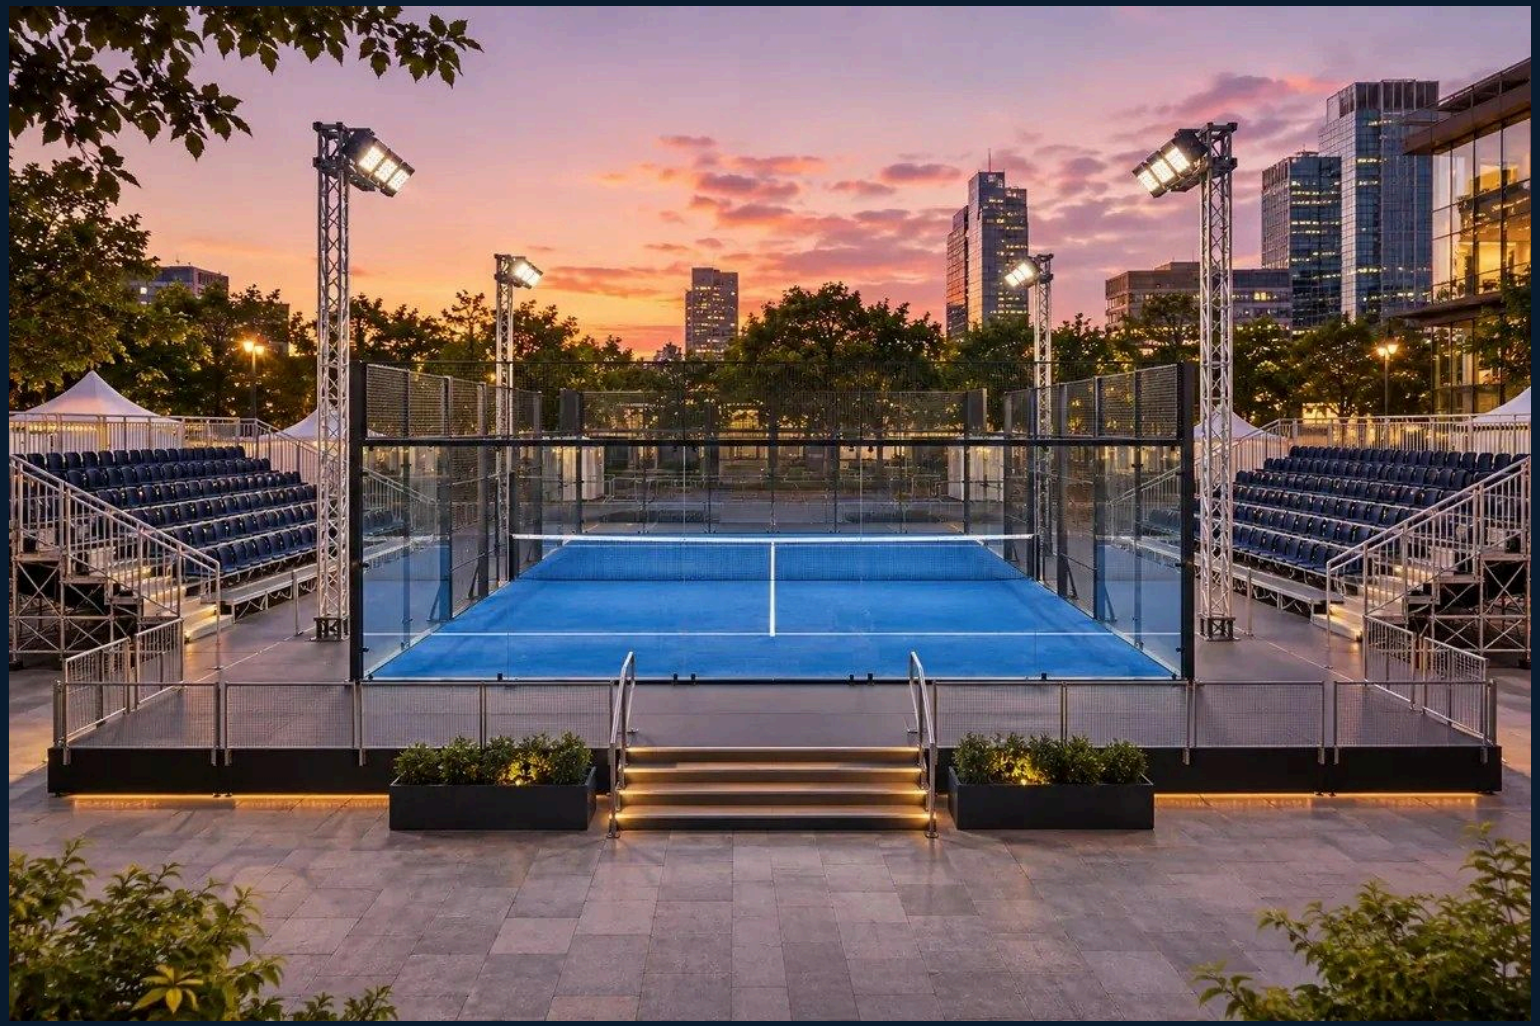

COURT CONCEPT / AG-PDL-13

Outdoor High-Durability Court

An outdoor court procurement direction prioritising exposure, corrosion protection and maintainable components.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

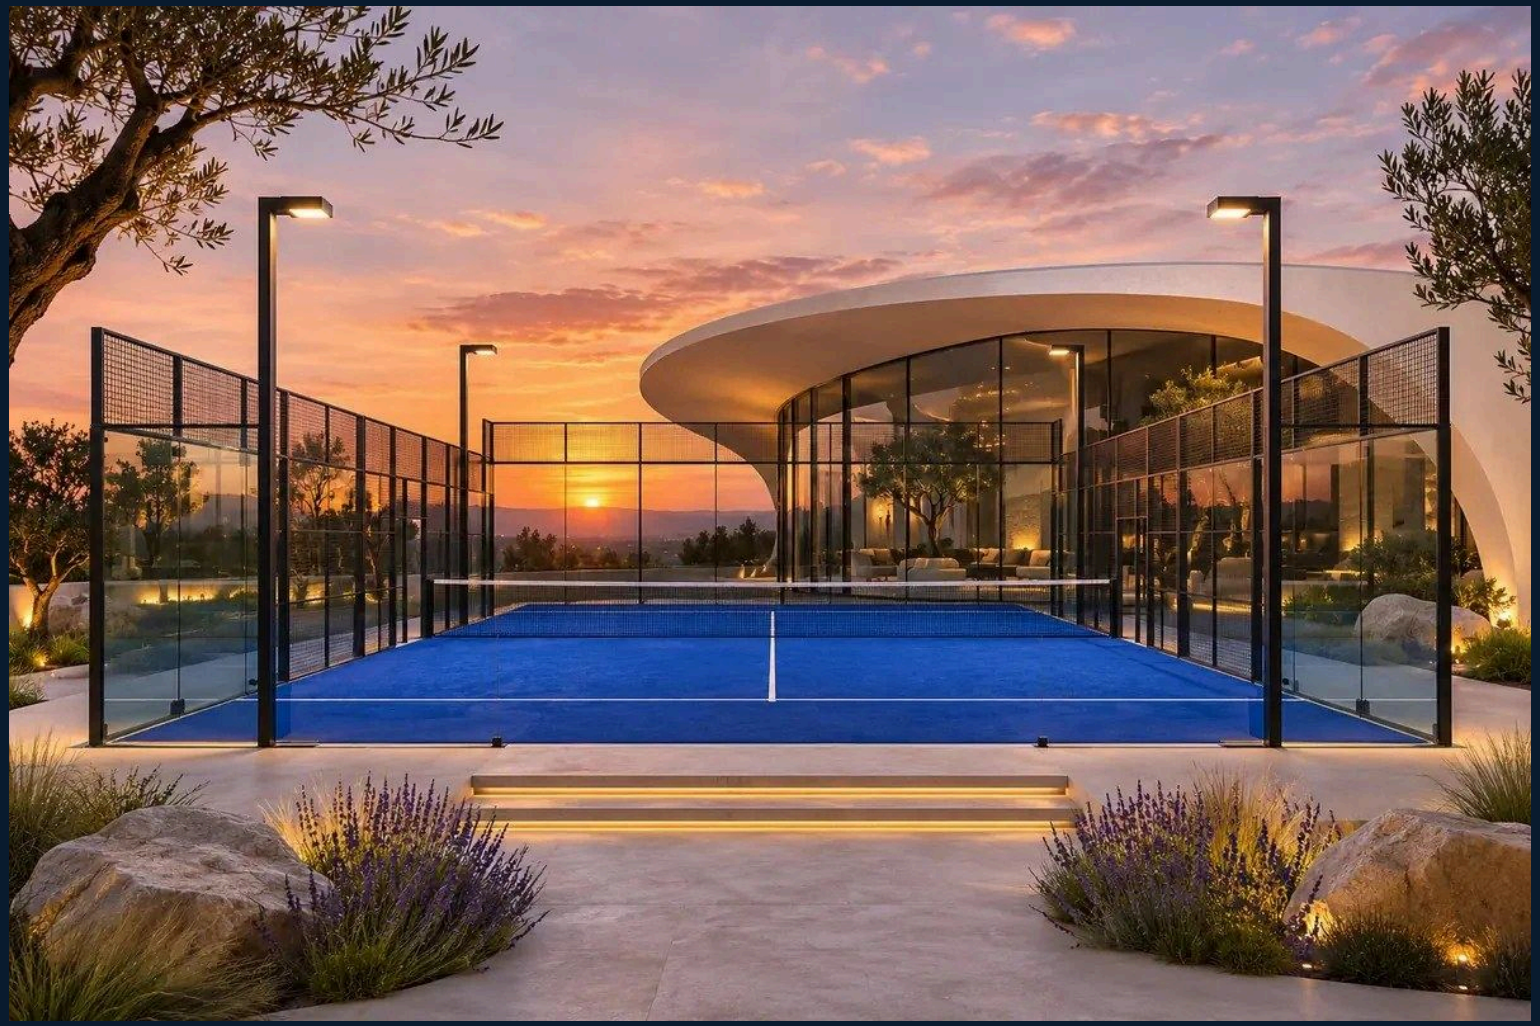

COURT CONCEPT / AG-PDL-14

Tournament Event Court

A temporary or recurring event-court concept for installations with defined venue, audience and operating constraints.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

COURT CONCEPT / AG-PDL-15

Custom Architectural Court

A project-specific court direction coordinated with architecture, landscape, lighting and brand requirements.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

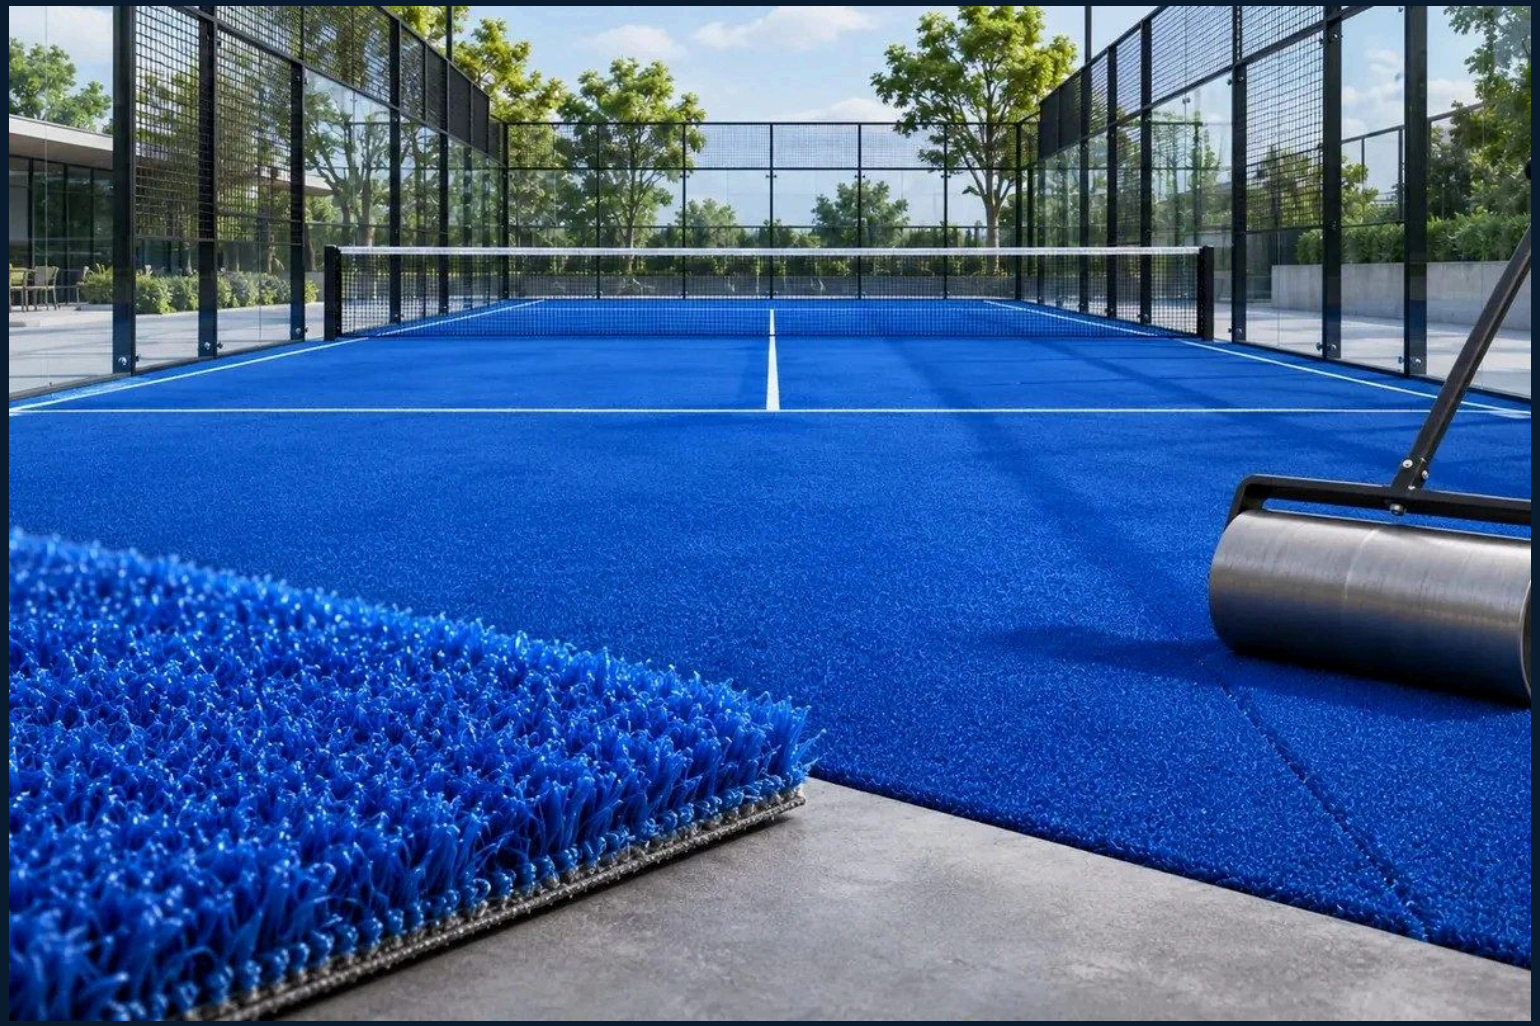

COMPONENT / PROJECT SCOPE / AG-PDL-L01

Sports LED Lighting

Padel lighting procurement and design coordination based on play level, mounting arrangement and site context.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

COMPONENT / PROJECT SCOPE / AG-PDL-T01

Blue Artificial Padel Turf

A blue playing-surface option for a padel court brief, to be matched to the chosen court and project performance requirements.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

COMPONENT / PROJECT SCOPE / AG-PDL-G01

Safety Glass Package

Glass panel and fixing procurement coordinated with the selected court manufacturer.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

COMPONENT / PROJECT SCOPE / AG-PDL-S01

Court Steel Structure

Structural enclosure components and protective finish reviewed against the court supplier’s engineered system.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

COMPONENT / PROJECT SCOPE / AG-PDL-C01

Civil Foundation Package

Site preparation and foundations planned from survey, geotechnical information, manufacturer reactions and local design criteria.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

COMPONENT / PROJECT SCOPE / AG-PDL-D01

Drainage & Sub-base Package

A coordinated permeable court base and drainage concept designed around levels, rainfall, soil and approved discharge.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

COMPONENT / PROJECT SCOPE / AG-PDL-R01

Canopy & Roofing Package

Shade and roof coordination for court comfort, weather protection and venue operations.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

COMPONENT / PROJECT SCOPE / AG-PDL-M01

Inspection & Maintenance

A planned inspection and care programme for turf, glass, fixings, lighting and drainage after handover.

Proposed AG concept. Named OEM, drawings, engineering, materials, certification, price and availability require verification.

View the existing source record and evidence status at www.agactiveplays.com

Before specification.

EVIDENCE & PROJECT RESPONSIBILITIES

OEM & procurement

Confirm the named manufacturer and model, production scope, supplier drawings, material traceability, warranty and delivery terms.

Engineering & local approvals

Appointed engineers review structural actions, glazing, foundations, drainage, access, lighting and any roof or rooftop interfaces.

Commercial & installation scope

Agree civil works, transport, installation, testing, handover and maintenance responsibilities for the actual site.

Unresolved technical facts

Court dimensions, glass thickness, structural sections, wind resistance, certifications, prices, lead times and manufacturing origin are not verified by these concept records.
